CORPORATE & CLINICAL PORTFOLIO SPECIFICATION

About Brahmismi Bioceuticals

Advancing Evidence-Based Wellness & Palliative Care

Brahmosmi Bioceuticals is a forward-thinking biomedical enterprise dedicated to developing premium, scientifically validated health solutions. Deeply rooted in bridging the gap between natural therapeutic principles and rigorous clinical validation, the company specializes in high-efficacy formulations that target oral health, respiratory protection, and advanced metabolic and dermatological care.

Driven by a commitment to research excellence and healthcare innovation, Brahmismi Bioceuticals focuses on providing safe, non-irritating, and fast-acting supportive care. By maintaining the highest standards of safety and patient compliance, the company delivers trusted, professional-grade products designed to enhance daily well-being and protect frontline health.

Scientific Foundations & Legacy

Brahmosmi Bioceuticals stands at the paradigm-shifting intersection of historical botanical efficacy and rigorous modern clinical validation. By translating centuries-old wisdom into precisely standardized wellness formulations, we address complex modern therapeutic vectors with uncompromised biological synergy.

30+ Years

OF UNCOMPROMISED AND RELENTLESS R & D

Our deep-rooted commitment to empirical evidence-based outcomes drives continuous research and refinement. This extensive clinical background ensures that every protocol, molecular extraction, and commercial formulation delivers optimal bioavailability, absolute safety profiles, and targeted physiological efficacy.

The Three Pillars of Care

Our product architectures are purposefully engineered across three discrete healthcare dynamics to provide full-spectrum medical and wellness intervention:

PREVENTIVE

Fortifying physiological barriers and advancing baseline systemic defense mechanisms to intercept pathologies before onset.

PALLIATIVE

Mitigating acute or chronic symptom expressions, delivering tissue-soothing comfort, and restoring immediate mucosal and cellular homeostasis.

THERAPEUTIC

Deploying highly bioavailable active components to actively combat, resolve, and accelerate natural recovery from metabolic and respiratory imbalances.

Exclusive Innovative Standardised Products

Unlike generic wellness solutions, our strategic focus centres exclusively on proprietary, standardized formulations. Each product line undergoes stringent molecular mapping to guarantee uniform potency across batches, meeting the demanding clinical standards of both modern medical practitioners and healthcare institutions.

Targeted Delivery Mechanisms: Advanced topical, oral spray, and sublingual configurations designed to match natural human physiological absorption zones.

Evidence-Backed Efficacy: Backed by extensive research and presentations at international clinical symposiums to validate functional health outcomes.

Frontline Protection Frameworks: Specialized formulations specifically created to protect mucosal and respiratory tracts against persistent environmental and biological stressors. product line undergoes stringent molecular mapping to guarantee uniform potency across batches, meeting the demanding clinical standards of both modern medical practitioners and healthcare institutions.

GLOBAL QUALITY & COMPLIANCE STANDARDS

Manufactured at WHO / GMP / FDA Certified Modern Facilities

SAP NASAL CREAM

Your Personal Protective Shield Against Air Pollution

SAP Nasal Cream is an advanced Ayurvedic formulation scientifically designed to act as both a mechanical and therapeutic barrier against harmful environmental pollutants, allergens, pollens and common respiratory irritants. By leveraging traditionally proven herbal extracts suspended in a premium, non-greasy cream base, it effectively maintains nasal mucosal health, protects the upper respiratory pathway, and significantly improves the quality of life for individuals living and working in high-exposure urban or industrial environments.

Key Scientific Composition

Ingredient	Botanical Name	Primary Benefit
Ghrita Kumari	Aloe Barbadensis	Soothing, deep hydration, and anti-inflammatory properties.
Tulsi	Ocimum Sanctum	Potent antimicrobial, adaptogenic, and mucosal protective activity.
Yashti	Glycyrrhiza Glabra	Demulcent; naturally coats the mucosa to rapidly minimize irritation.
Sirish	Albizia Lebbeck	Time-tested Ayurvedic standard for localized anti-allergic defense.
Bharangi	Clerodendrum Serratum	Supports overall respiratory health and efficiently manages secretions.

Clinical Indications

- Environmental Protection:**
Acts as a primary filter for heavy dust, industrial smoke, smog, and microscopic air pollutants
- Allergy Management:**
Substantially reduces direct exposure to common triggers for Allergic Rhinitis and Asthma
- Mucosal Health Maintenance:**
Provides deep, soothing relief to chronically dry, itchy, or highly irritated nasal passages

Target Audience

- High-Risk Professionals:** Healthcare providers, front-line workers, construction/mining personnel, and municipal/sanitary field staff
- Vulnerable Groups:** School-going children, elderly individuals, and those with compromised immunity or hyper-sensitive airways
- Commuters & Travelers:** Daily open-air bikers, pedestrians in urban corridors, and frequent commercial flyers
- Industrial Workers:** Personnel employed in cement manufacturing, stone quarries, brick kilns, or thermal power sectors

Directions for Application

- Pollution Shielding:**
Apply a thin, uniform smear at the very entrance of both nostrils 3–4 times daily
- Irritation & Dryness Relief:** Gently apply a thin smear inside the nasal passages 3–4 times daily for continuous hydration

Important Precautions: For external nasal use only. Avoid absolute contact with eyes. If local irritation persists or an unexpected allergic reaction occurs, discontinue application immediately and consult a qualified physician.

Brahmosmi's

ORISHH ORAL SPRAY

Total Oral Harmony

1. Executive Summary

ORISHH Oral Spray is a premium, science-backed functional food designed to provide comprehensive oral care. Formulated as a sugar-free and tooth-friendly solution, it offers a multi-action approach to oral hygiene, mucosal protection, and lasting comfort. By combining traditional botanical wisdom with modern clinical evidence, ORISHH serves as an essential companion for those seeking relief from oral discomfort and a proactive defense against dental biofilms.

2. Product Profile

- **Brand Name:** ORISHH
- **Category:** Functional Food / Oral Care
- **Format:** Oral Spray (Convenient & Portable)
- **Key Claims:** Sugar-Free & Tooth-Friendly | Biofilm Breaking & Prevention | Total Oral Hygiene Support

Primary Indications

- **Xerostomia (Dry Mouth):** Hydrates and stimulates natural saliva production
- **Post-Procedure Recovery:** Ideal for soothing the mouth after dental surgery or treatments
- **Inflammatory Conditions:** Helpful for mouth ulcers, denture sores, and mucositis
- **Pain Management:** Provides natural relief for oral cavity discomfort
- **Halitosis:** Neutralizes bad breath at the source by targeting odour-causing bacteria

3. Salient Features

- **Immediate Hydration:** Instantly lubricates the oral mucosa for lasting comfort
- **Mucosal Shield:** Reinforces the natural defences of the oral cavity
- **Biofilm Disruptor :** Actively works to prevent and break down plaque and bacterial biofilms
- **Soothing Action:** Calms sensitive areas and reduces irritation.
- **Clean Environment:** Promotes a hygienic oral ecosystem through antimicrobial action

Scientific Formulation & Ingredients

ORISHH is powered by a synergistic blend of botanical extracts and xylitol, each supported by peer-reviewed clinical research.

Ingredient	Primary Benefits	Key Reference
Zingiber officinale (Ginger)	Salivary stimulation; Anti-inflammatory; Antimicrobial	Badooei et al. (2021) - Effective for xerostomia in diabetic patients.
Thymus vulgaris (Thyme)	Caries prevention; Radioprotective for salivary glands.	Fani & Kohanteb (2017) - Potent against major oral pathogens.
Cinnamomum verum (Cinnamon)	Natural analgesic; High antimicrobial potency.	Aneja et al. (2012) - Targets selected oral pathogens effectively.
Elettaria cardamomum (Cardamom)	Biofilm inhibition; Anti-candidal activity.	Souissi et al. (2020) - High efficacy against S. mutans and C. albicans.
Piper nigrum (Black Pepper)	Periodontal management; Anti-caries action.	Gopalakrishna et al. (2023) - Evaluated for clinical periodontitis.
Syzygium aromaticum (Clove)	Total oral protection; Periodontal health.	Bhatha et al. (2020) - Extensive pharmacological profile on oral colonization.
Xylitol	Remineralization; Plaque adhesion reduction.	Nayak et al. (2014) - Proven plaque reduction benefits.

5. Usage Instructions

General Use:

- Aim the nozzle toward the affected area or generally into the oral cavity
- Apply 6-8 sprays as needed to moisten and soothe the mouth

Storage: Store in a cool, dry place away from direct sunlight

6. Conclusion

ORISHH Oral Spray is more than just a breath freshener; it is a clinical-grade "Functional Food" for the mouth. By addressing the root causes of oral discomfort and microbial imbalance, it provides users with Total Oral Harmony in a convenient, portable format.

VANISHES MOUTH ULCERS

The Science of Soothing. The Power of Nature.

Product Overview

Vanmul is a premium Ayurvedic chewable tablet engineered to provide rapid relief from oral distress. By combining ancient botanical wisdom with modern validation, Vanmul doesn't just mask the pain—it fosters an environment for the oral mucosa to heal and thrive.

Core Benefits

- Rapid Healing:** Accelerates the recovery of painful mouth ulcers.
- Hydration Therapy:** Effectively moistens the oral mucosa to combat Xerostomia (Dry Mouth).
- Triple Action:** Relieves discomfort, neutralizes Halitosis (Bad Breath), and maintains peak oral hygiene.
- Holistic Boost:** Supports appetite and natural immunity through systemic absorption.

Understanding the Root Causes

Why do Mouth Ulcers occur?

Mouth ulcers (Aphthous Stomatitis) are often the body's way of signalling internal or external stress. Common triggers include:

- Nutritional Deficiencies:** Lack of Vitamin B12, Zinc, or Iron.

The Science of Ingredients

Each tablet is a calibrated blend of potent Phyto-actives:

Ingredient	Part Used	Primary Function
Pippali (Piper longum)	Bud	Bio-enhancer & Anti-inflammatory
Lavang (Syzygium aromaticum)	Bud	Natural Anaesthetic & Antimicrobial
Yashtimadhu (Glycyrrhiza glabra)	Root	Soothing Mucosal Protective Agent
Amlaki (Phyllanthus emblica)	Fruit	High Vitamin C for Tissue Repair
Shunthi (Zingiber officinale)	Rhizome	Sialagogue (Stimulates Saliva Flow)
Ashwagandha	Root	Stress-related Healing & Immunity

- Mechanical Injury:** Accidental cheek bites, sharp braces, or vigorous brushing.
- Gastrointestinal Issues:** Often linked to acidity, constipation, or heat in the digestive tract.
- Stress & Hormones:** Emotional stress and hormonal fluctuations can trigger recurrent outbreaks.
- Immune Response:** A weakened immune system can slow down the repair of the oral mucosa.

What leads to Dryness of Mouth (Xerostomia)?

Dry mouth isn't just thirst; it's a reduction in salivary flow that can lead to infections and tooth decay. Key causes include:

- Medication Side Effects:** Many common prescriptions (for BP, anxiety, or allergies) list dry mouth as a primary side effect.
- Dehydration & Lifestyle:** Low water intake or excessive consumption of caffeine and tobacco.
- Aging:** Natural reduction in salivary gland activity over time.
- Mouth Breathing:** Often caused by nasal congestion or sleep apnea.

Directions for Use

For Mouth Ulcers: Place 1-2 tablets near the affected area. Allow it to dissolve slowly to ensure prolonged contact with the lesion. Repeat 3-4 times daily.

For Dry Mouth: Dissolve 1-2 tablets in the mouth as needed to stimulate salivary glands and moisten the mucosa as and when required.

Market Relevance & Audience Insight

Oral health issues are more prevalent than often realized. Vanmul addresses a significant portion of the population suffering from general and recurring discomfort:

- 77% Experience general Mouth Discomfort
- 65% Struggle with Dryness of Mouth (Xerostomia)
- 50% Combat Bad Breath (Halitosis)
- 22% Suffer from recurring Mouth Ulcers (Aphthous Stomatitis)

Target Audience

- Individuals suffering from mouth ulcers, dryness of mouth, and oral discomfort.
- People looking for a natural, clinically-backed solution for personal oral hygiene.

Technical Specifications & USP

- Dosage Form:** Palatable Chewable Tablets
- Packaging:** Premium Blister / Alu Alu Pack (10 Tablets x 10 Strips)
- Shelf Life:** 36 Months
- Unique Selling Point (USP):** A 100% Natural, non-habit-forming solution that treats the root cause while providing immediate symptomatic relief.

Clinical Insights & Scientific References

Clinical Insight: Research published in the International Journal of Pharmaceutical Sciences confirms that the synergistic use of Liquorice (Yashtimadhu) and Amla significantly reduces ulcer size and pain intensity within 48-72 hours.

Brahmosmi's

SavTeeth GEL

Advanced Care for Sound Oral Health

“Oral Health is the Window to Your Overall Health”

Are You Suffering From?

- Sensitive teeth triggers (Hot, Cold, Sour foods/drinks)
- Swollen, bleeding, or painful gum issues
- General pain and persistent discomfort in the oral cavity
- Painful mouth ulcers and denture-induced ulcers
- Dryness of the mouth (Xerostomia)
- Chronic foul breath (Halitosis)
- Suboptimal oral hygiene impacting your confidence

The Silent Epidemic: Oral Health Prevalence in India

Oral Health Condition	Prevalence Rate (% of Indian Population)
Gum Issues	90%
Pain / Discomfort in Oral Cavity	77%
Dryness of Mouth	65%
Dental Caries	54%
Sensitive Teeth	Up to 50%
Halitosis / Foul Breath	50%
Bad Oral Hygiene & Health	50%
Mouth / Denture Ulcers	20%

The Nature's Solution: SavTeeth Gel (15g)

Brahmosmi Bioceuticals proudly introduces SavTeeth Gel, a clinically designed natural formula engineered to restore, protect, and maintain complete oral wellness. By combining advanced biomechanisms with botanical safety, SavTeeth targets the root causes of dental diseases.

Therapeutic Mechanisms of Action:

- **Raising Oral pH:** Neutralizes acidic environments to prevent enamel erosion and inhibit acidophilic pathogens.
- **Enamel Strengthening:** Promotes remineralization pathways to fortify the outermost protective layer of teeth.
- **Occlusion of Dentin Tubules:** Blocks exposed microscopic pathways to the nerves, rapidly relieving tooth sensitivity.
- **Broad-Spectrum Antimicrobial Action:** Curbs harmful bacterial proliferation responsible for plaque and cavities.
- **Anti-inflammatory & Analgesic Actions:** Soothes painful, swollen gums and reduces oral discomfort.
- **Prevention of Biofilm Accumulation:** Disrupts sticky bacterial matrix formations to arrest calculus development.
- **Strengthening of Gums:** Rejuvenates periodontal tissues for firmer, healthier anchoring of teeth.
- **Accelerated Ulcer Healing:** Provides a protective layer over aphthous or denture ulcers, accelerating mucosal recovery.

5 Pillars of Comprehensive Oral Hygiene & Health

1. Regular application of SavTeeth Gel twice daily directly onto affected areas or as directed.
2. Thorough brushing of teeth at least twice a day using a soft-bristled brush.
3. Maintaining a balanced, nutrient-rich healthy diet low in processed sugars.
4. Scheduling regular professional dental check-ups every six months.
5. Avoiding all forms of tobacco use to protect the oral mucosa and periodontal health.

Brahmosmi's

Booon Syrup

Helps Alleviate MUCOSITIS Symptoms

Category: Ayurvedic Proprietary Medicine
Indication: Management of Mucositis and Oral Health Symptoms

Product Overview

Booon Syrup is a specialized Ayurvedic formulation designed to alleviate the debilitating symptoms of Mucositis, particularly for patients undergoing treatments that affect oral mucosal integrity. It acts as a protective, healing, and antimicrobial agent for the oral cavity.

Therapeutic Composition

Each 10 ml contains a synergistic blend of aqueous extracts:

Ingredient (Botanical Name)	Part Used	Concentration	Primary Function
Shunthi (Zingiber officinale)	Rhizome	0.5%	Anti-inflammatory & Bio-enhancer
Tulasi (Ocimum basilicum)	Leaf	0.5%	Potent Antimicrobial & Adaptogen
Haridra (Curcumin longa)	Rhizome	0.5%	Healing agent & Antioxidant
Thyme (Thymus vulgaris)	Leaf & Flower	0.2%	Antiseptic & Biofilm disrupter
Tvak (Cinnamomum verum)	Bark	0.2%	Hemostatic & Flavorant
Madhurika (Foeniculum vulgare)	Seed	0.2%	Soothing agent & Digestive aid
Sukshmaila (Eletiaria cardamomum)	Seed	0.2%	Breath freshener & Salivary stimulant

Key Benefits & Mechanism of Action

- Mucosal Healing** : Promotes the repair of ulcers and lesions associated with mucositis and stomatitis.
- Protective Barrier** : Moistens and lubricates the mouth, providing a protective layer over sensitive nerve endings.
- Biofilm Management** : Specifically formulated to break down oral biofilms and prevent the accumulation of pathogenic bacteria.
- Irradiation Support** : Helps protect salivary glands from the side effects of radiation therapy.
- Symptomatic Relief** : Eliminates Halitosis (bad breath), strengthens gums, and improves overall oral hygiene.
- Quality of Life** : By facilitating easier food intake and improving appetite, it directly enhances the patient's nutritional status.

Usage & Administration

To ensure maximum efficacy, the "Swish and Swallow" method is recommended:

- Dosage: 15 ml of Booon Syrup (or as directed by a physician).
- Method: Swish in the mouth for approximately 1-2 minutes to allow for mucosal absorption and biofilm disruption, then slowly gulp.
- Frequency: 3-4 times a day, preferably before food intake.

Manufacturing & Compliance

Brand: Brahmosmi Bioceuticals
Manufacturer:
Giosun Healthcare Pvt Ltd
(ISO & AYUSH GMP Certified)

License No: T-2108/AYUR

Origin: Made in India

Storage: Keep in a cool, dry place away from direct sunlight.

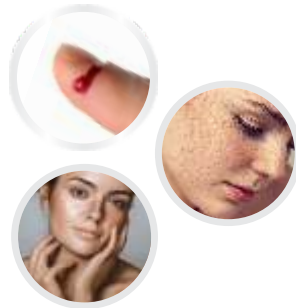

Net Volume: 200 ml

Heal O Sorb

Sterile Powder

- Bleeding Injuries
- Wounds
- Oily face
- Pigmentation
- Acne / Blemishes
- Pemphigus

Heiler

Cream

- Burns / Scalds / Radiation Burns
- Bruises / Cuts / Wounds
- Abrasions
- Infections
- Impetigo
- Facial Blemishes

Combination therapy with Heiler Cream & Heal O Sorb Powder

- Pressure Sores • Diabetic Foot Ulcers
- Malignant Ulcers • Chronic Non Healing Ulcers of any aetiology

Combination Therapy (Heiler cream + Heal O Sorb sterile powder) for Pressure Sores, Diabetic Foot Ulcers, Malignant ulcers, Non healing ulcers

A chronic non-healing wound, also known as a chronic, is a wound that doesn't show signs of healing within four weeks of onset and persists beyond eight weeks. Chronic wounds can be caused by poor circulation, diabetes, a weak immune system, paralysis, sensory impairment, or other underlying medical conditions. If left untreated, chronic wounds can lead to illness, limb loss, or hospitalization.

Salient Features:

- Faster Healing
- Painless dressings
- Dressing once in 3-4 days
- Relieves Oedema and Cellulitis
- Absorbs exudates
- Facilitates easy and painless removal of dressing
- Faster proliferation of granulation tissue
- Helps remove slough
- Keeps environment moist for faster healing

Directions for Use:

First Aid - Apply gently **Heiler** Cream on injuries like Abrasions, Burns, Scalds, Bruises, Wounds, Lacerations etc whenever required . For **Bleeding Injuries** Sprinkle liberally **Heal O Sorb Sterile Powder** to **Stop Bleeding**.

Combination Therapy of Heiler Cream & Heal O Sorb Sterile powder:

Pressure Sores, Diabetic Foot Ulcers, Malignant Ulcers, Chronic Non Healing Ulcers of any aetiology - Irrigate the ulcer / wound with normal saline . Apply gently Heiler Cream over the ulcer .Sprinkle liberally Heal O Sorb sterile powder over it. Dress it with sterile pads and leave it for 3 days . While removing soak the dressing with normal saline . Dressing peels off easily . Repeat the dressings till complete healing takes place .
